SUMMARY

Electrical Engineer with experience in circuit design, maintenance, and embedded systems. Skilled in C, C++, Python, and data analysis. Proven ability in troubleshooting and innovative problem-solving in technical environments. Currently seeking to leverage skills in a professional engineering role.

PROFESSIONAL EXPERIENCE

Multiservicios EILA - Electrical Maintenance Assistant

September 2024 - December 2024

- Conducted preventive and corrective maintenance on electrical systems
- Collaborated in inspection and repair of industrial equipment

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Electrical Engineering

Universidad de Costa Rica, October 2024

Technical Degree in Electrotechnics

Colegio Técnico Profesional de Heredia, 2015

SKILLS

- Preventive/corrective maintenance
- Machine Learning basics
- Algorithms & Data Structures
- Programming: C, C++, Python, Verilog
- Embedded Systems (SoC)
- Circuit Design & Analysis
